Kayde	Kempen	I would like to give a shout-out to Peggy Breister. Peggy has provided great mentorship to me and has really helped me become a better writer. Thank you Peggy!	02/19/16
Rebecca	Habeck	<p>Joshua Ranger deserves a compliment for going above &amp; beyond to help me as a University Staff member &amp; the University as a whole.</p> <p>He volunteered to give an historical walking tour of UW Oshkosh for USDAD that everyone who attended raved about. I hope his presentation will be available at future Staff Development Days.</p> <p>He was willing to meet multiple times to help me, as a new ADA, understand records management and create my own records management schedule. This allowed me to help our entire Foreign Languages &amp; Literatures Dept. declutter before our move from Dempsey to Clow Faculty Tower.</p> <p>Finally, Joshua presented a lecture honoring the past Chancellors' contributions over the years, which really helped me understand UW Oshkosh as an employee and alum. He was able to make UWO's history come alive with humor and respect. Due to popular demand, he was willing to give an encore presentation as well, which shows his dedication, passion, and professionalism.</p> <p>We are so fortunate to have Joshua Ranger as our Archivist and University Staff advocate.</p>	02/18/16

Laura	Zirbel	Cindy Schultz, thank you for sending the daily "Quote of the Day".  Today's quote fits you to a tee:  "When you are joyful, when you say yes to life and have fun and project positivity all around you, you become a sun in the center of every constellation, and people want to be near you."  Shannon L. Alder Author	02/11/16

MaryBeth	Petesch	Julio Moran has been a life saver the past few years with his IT support for my office and for the college in general. So many times when an issue with technology emerged that stopped me in my tracks he was there to assist.... and always with a smile and positive attitude. He's a treasure!	02/08/16
Neil A.	Harriman	As a retired Biology professor, I am especially grateful for the help I have always received from Chemistry professors, most recently Jim Paulson, Bill Wacholtz, and George Olson. I have tried all along to say thank-you, but I welcome the opportunity to express my gratitude in this forum.  My last Chemistry course was half a century ago, but the people on fourth-floor Halsey seem to have an intuitive sense of how much (or how little) I have already grasped, when I come to them with a question. I appreciate their knowledge, their ability to explain things, and their courtesy.	02/08/16
Anne	Murphy	Kira Fritsch - She is wonderful to work with! She is our planner for the Student Health Center remodel and is thorough, flexible, and by far the most understanding person. We have a lot of demands and she continues to bring professionalism to each meeting with a positive attitude. We love her!	02/08/16

Titans are lucky to have her!</p>	02/08/16
