Stacey	Skoning	A huge thanks to Dr. Denise Clark for her endless hours of work supporting our graduate students over the last decade! Please know that your work as graduate coordinator has been greatly appreciated by all of us in the Department of Special and Early Childhood Education and by our many graduate students who have worked with you over the years.	05/26/16
Dana	Hartel	I just saw the "Humans of Oshkosh" video about teachers and really enjoyed it on so many levels. I did want to pass along one item in particular that I thought was a nice directed "touch" where Timber was typing on a manual typewriter and we saw him remove his title page, rather than typing on a computer with a printer producing his page. That was a good idea...whoever came up with that.	05/26/16
Ricky	Johnson	Ryan Van Scyoc's work is largely in the background for Campus IT, but it is crucial for IT Technicians and the campus as a whole. He is very helpful and knowledgable! His recent work and advances in developing Managed Software Center is going to make support of Apple computers on campus a great deal better!	05/26/16

Heidi	Frey	The campus looked outstanding for the Spring 2016 Commencement Ceremonies on Saturday. The custodial staff and buildings and grounds crew should be commended. They outdid themselves, despite understaffing in their division. Anyone who saw our campus on Saturday would feel lucky and proud to be a Titan. Thank you for giving us all a beautiful place to live, learn, and work.	05/18/16
Erica	Spicer	Missy Burgess, willingness to pull her team together to try something new, even if not the most ideal time. Being a team player and working through challenges to make the most of resources available for students.	05/18/16

Erica	Spicer	Rebecca Cleveland, focuses on the joy that comes with everyday in what she does with a genuine smile that is contagious. Willing to always meet students "where they are at" before making assumptions and expectations beyond their means.	05/16/16
Rebecca	Habeck	Carolyn Martin is wonderful. She goes above & beyond to help give everyone their desired room selections. She is always prompt and friendly. She met with me three times to try to adjust rooms when we learned we were moving to Clow a semester ahead of schedule and was able to move most instructors from Dempsey to Clow. She taught me how to use the PeopleSoft Class Facility Usage page. Carolyn is an invaluable resource.	05/16/16
Stacey	Skoning	Congratulations to Susan Finkel-Hoffman for a great radio interview on WPR this afternoon. You are a great ambassador for our programs in WI, and around the world!	05/04/16
Grace	Lim	To Pat Adkins, Craig and all the awesome people in Doc Services. You are the one department that I can count on without fail. You've save my you-know-what many a times. Thank you for the care you take in producing the books and magazines for my students' projects. Thank you for your good humor. Do not ever retire.	05/02/16
Grace	Lim	To Brian, who completely understands and is all in when I say things like, "Next project, we're going small, tiny, really," and then ask for the Leach Amphitheater, marching bands and pyrotechnics. Thank goodness for you and all the creative and super-supportive folks in Learning Technologies.	05/02/16
Heidi	Frey	Heidi, it is such a pleasure to work with you. You are always so upbeat and ready to help! Thank you for brightening my day!	05/02/16
Tom	Daley	To Mr. Tom Fojtik and the staff workers in Res. Life at GCC. Thank you for support each and every day.	05/02/16
Ron	Harrell	MaryBeth Petesch, You've always been supportive as long as I've been with UWO. You know this already, but this seems like a good vehicle to deliver another message to you. Enjoy your day.	05/02/16

Kate	Manthey	Esmeralda (Esie) Delgado (College of Business) is simply amazing. Whether it's a simple answer or something that's going to take some effort, Esie is there to help with a smile. I've just completed my first year on campus, and Esie always made time for my many questions. The year would not have gone as smoothly as it did without her assistance!	05/02/16
Stephanie	Spehar	Connie Whittaker, the ADA for the Department of Religious Studies and Anthropology, does such a great job for us. She is efficient, organized, professional, cheerful, patient, and also just a pleasure to interact with. Her laugh is one of my favorite sounds on the UWO campus. Thanks for everything you do, Connie!	05/02/16
Stacey	Skoning	Congratulations to Wendy Strauch-Nelson and Louis Chicquette! What a wonderful celebration to end the first year of ArtsCore! It was clear that the teachers involved learned a tremendous amount about arts integration this year. Their stories of connecting to children and improving the education of students in Pk-12 settings are a testament to your work all year.	05/02/16
Wendy	Strauch-Nels	UW Oshkosh ArtsCore and I, personally, are incredibly lucky to have Donna Nelson supporting our efforts with her organizational genius, efficiency, joyful attitude, and hard work. Thank you for everything you do, Donna!	05/02/16
Mark	Berg	Mary Hale was such a help when I first started here. She went the extra mile to help me with my phone system and with other needs, and followed up to make sure I had what I needed.	05/02/16
Tom	Lammers	I would like to point out what a fine job our stockroom manager Tom Perzentka does. That job carries such a diverse array of critical responsibilities, and Tom takes care of them all with real professionalism. A genuine asset to this department.	05/02/16
Rob	Clancy	I would like to compliment Grace Lim for her outstanding job in coordinating the Humans of Oshkosh course and event that took place. It was an amazing event to behold!	05/02/16
Peggy	Breister	A shout out to Jenni Monroe who after joining the IMC staff a few short months ago was tasked with spearheading the Viewbook project - a major Admissions publications that is undergoing a complete overhaul. Jenni has exhibited incredible leadership as she works across departments to make this publication an incredible recruitment piece for UWO.	05/02/16

Carleen	Vande Zande	Special thanks to Sara and Erin for the support they give all of us in the Office of the Provost.	05/02/16
Donna	Nelson	I would like to send a shout out to Pat and Craig over in Document Services for their hard work and speedy turn around time for all the ArtsCore projects this past year. It helped make my job much easier and less stressful knowing I had their expertise producing and duplicating any materials! Thank you, thank you!	05/02/16
Sue	Fondrie	Becky Beahm is a pleasure to work with. She's organized, highly competent, and she always manages to inject humor into whatever she does. Thanks for your work in PEP, Becky!	05/02/16
Rebecca	Habeck	Even though I didn't receive a raise, I want to compliment HR & the Administration on their willingness to do the salary equity process and the transparency with which it was handled. Thanks so much for all your time/expertise to address such an important issue.	05/02/16
