Cordelia	Bowlus	I would like to like to extend my gratitude to those who have played a critical role in the success the McNair Program. First and foremost, I would like to thank the faculty mentors who dedicated countless hours of their time to help our scholars design and conduct their research, and who patiently read and reread drafts of the papers, providing critical guidance. Without your time and effort, we would not be here today. Secondly, I would like to thank Dr. Crystal Mueller and the student mentors at the Writing Center who were always there for our scholars, helping them with everything from editing their final papers to crafting the personal statements, so essential to graduate school applications. I was very grateful to Wayne Abler from Learning Technologies who, with twenty-four hours notice, brought his video recording equipment by to record student presentations. Dr. Michael Jasinski deserves special praise not only for providing the students with oral feedback during their initial PowerPoint presentations but also for volunteering his time to read the scholars'™ drafts and providing written feedback to each and every one of them. I am extremely grateful to Rich Marshall from Career Services and Dr. Crystal Mueller who were always available to provide me with wise council and dedicated two days of their time to presenting to and working with the scholars at the annual Graduate Retreat. I would also like to extend a special thanks to Dr. Gabriel Loiacono, Dr. Fredi Giesler, Dr. Yoko Mogi-Hein and Patrick Klepp, a former McNair scholar, all of whom stepped in at the last minute to volunteer their time and expertise at the annual McNair Poster Workshop. I would be remiss not to mention Bob Roberts, Director of the Grants and Faculty Development, and his dedicated staff, in particular Cindy Maas and Leah Mann, who have, despite their busy schedules, always been there in a time of crisis. Michelle Highley in Administrative Services also deserves special kudos for getting us through some tight spots with travel and the like. As we begin recruiting for our next cohort, I have received e-mails from multiple members of the UWO faculty wishing to nominate outstanding students for the McNair Program. It is through contacts such as these that we reach the students who can most benefit from the incredible opportunities that McNair affords through its preparation of first generation, low income students as well as underrepresented minorities for the pursuit of doctoral degrees. It takes individuals from all corners of a university to make a McNair Program thrive. Keep up the great work and never hesitate to send outstanding undergraduates to visit me and my new administrative assistant, Corina van Duser, in 319/320 Halsey.	10/20/16

I can imagine how busy Bob is, and I really appreciate the extra time he took to fix this problem.	10/26/16
Anne	Murphy	Mary Bartelt in the COEHS Dean's Office has been so helpful! I am new to learning the ropes in this college and she finds the time to figure out my questions all the while learning her own new position as Dean's Assistant and for a while, doing her old position at the same time.
