Jessica	Kleier	I would like to give a shout out to Lisa Mick! I know that she always takes such pride in her work on the grounds and she should, campus always looks great!	11/28/16
Annie	Duchek	I would like to compliment Jenny Woelfel in the advising office. She has been working extra hard over the last couple of months while the education advising team is understaffed. I greatly admire her dedication to helping both students and colleagues!	11/10/16
Laurie	Stevens	I would like to compliment the entire Admissions Office staff for their tremendous hard work, commitment and dedication. Every person in that office is doing extra work, going above and beyond, and making personal sacrifices for the students and families we work with and for the betterment of UW Oshkosh. They do what they do without expectation of recognition because that's who they are, but they deserve to be noticed for their ongoing willingness to do what needs to be done. Day in and day out, without fail.	11/09/16
Rebecca	Habeck	<p>Nicole Richter-Smith deserves a compliment. She consistently goes above &amp; beyond the call of duty and does so with a smile.</p> <p>My department co-sponsored an event and thought the other department was handling the money side of things. We found out a day before the presentation that wasn't true. Nicole helped us expedite paperwork so the speaker could be paid, even though she was busy with many other projects at the time.</p> <p>In my two years here, she has been willing to work with me any time I have a question, even if it's outside her area of responsibility.</p> <p>Nicole is also attending the Leadership Development Program and consistently shares powerful ideas. She truly is an asset to UWO.</p>	11/03/16
Rebecca	Habeck	I wanted to thank George Paul (IT) for the excellent organization labeling our telephone jacks. I had to fill out a spreadsheet for COLS to prepare for the new phone system. All the jacks were logical/consistent and well labeled so even a novice could understand. Many people wouldn't have taken the time to do the job this excellently & I really appreciate it!	11/03/16
Lori	Kroeger	<p>Michelle Peplow has been an outstanding addition to the COEHS. Her dedication to learning our new Assessment Management System, Tk20, has been nothing short of amazing. She has worked tirelessly to help onboard students, faculty, staff, cooperating teachers ... all with a smile.</p> <p>Thank you Michelle for your hard work and positive attitude! I would be lost without you!</p>	11/01/16
